# COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

## (a) Scope.

(1) This program applies to all employees and all places of employment, with the following exceptions:

- (A) Places of employment with one employee who does not have contact with other persons.
- (B) Employees working from home.
- (C) Employees when covered by section [5199, Aerosol Transmissible Diseases](#).

## (b) Definitions. The following definitions apply:

**“COVID-19”** means coronavirus disease, an infectious disease caused by the severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2).

**“COVID-19 case”** means a person who:

- (1) Has a positive “COVID-19 test” as defined in this section;
- (2) Is subject to COVID-19-related order to isolate issued by a local or state health official; or
- (3) Has died due to COVID-19, in the determination of a local health department or per inclusion in the COVID-19 statistics of a county.

A person is no longer a “COVID-19 case” in this section when a licensed health care professional determines that the person does not have COVID-19, in accordance with recommendations made by the California Department of Public Health (CDPH) or the local health department pursuant to authority granted under the Health and Safety Code or title 17, California Code of Regulations to CDPH or the local health department.

**“COVID-19 exposure”** means being within six feet of a COVID-19 case for a cumulative total of 15 minutes or greater in any 24-hour period within or overlapping with the “high-risk exposure period” defined by this section. This definition applies regardless of the use of face coverings.

**“COVID-19 hazard”** means exposure to potentially infectious material that may contain SARS-CoV-2, the virus that causes COVID-19. Potentially infectious materials include airborne droplets, small particle aerosols, and airborne droplet nuclei, which most commonly result from a person or persons exhaling, talking or vocalizing, coughing, sneezing, or procedures performed on persons which may aerosolize saliva or respiratory tract fluids, among other things. This also includes objects or surfaces that may be contaminated with SARS-CoV-2.

**“COVID-19 symptoms”** means the following unless a licensed health care professional determines the person’s symptoms were caused by a known condition other than COVID-19.

- fever of 100.4 degrees Fahrenheit or higher
- chills
- cough
- shortness of breath or difficulty breathing
- fatigue
- muscle or body aches

# COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

- headache
- new loss of taste or smell
- sore throat
- congestion or runny nose
- nausea or vomiting, or diarrhea,

**“COVID-19 test”** means a viral test for SARS-CoV-2 that is:

- (1) Approved by the United States Food and Drug Administration (FDA) or has an Emergency Use Authorization from the FDA to diagnose current infection with the SARS-CoV-2 virus; and
- (2) Administered in accordance with the FDA approval or the FDA Emergency Use Authorization as applicable.

**“Exposed workplace”** means any work location, working area, or common area at work used or accessed by a COVID-19 case during the high-risk period, including bathrooms, walkways, hallways, aisles, break or eating areas, and waiting areas. The exposed workplace does not include buildings or facilities not entered by a COVID-19 case.

Effective January 1, 2021, the “exposed workplace” also includes but is not limited to the “worksite” of the COVID-19 case as defined by Labor Code section 6409.6(d)(5).

**“Face covering”** means a tightly woven fabric or non-woven material with no visible holes or openings, which covers the nose and mouth.

**“High-risk exposure period”** means the following time period:

- (1) For persons who develop COVID-19 symptoms: from two days before they first develop symptoms until 10 days after symptoms first appeared, and 24 hours have passed with no fever, without the use of fever-reducing medications, and symptoms have improved; or
- (2) For persons who test positive who never develop COVID-19 symptoms: from two days before until ten days after the specimen for their first positive test for COVID-19 was collected.

## (c) Written COVID-19 Prevention Program Components.

Sacramento City Unified School District (District) has developed this written COVID-19 Prevention Program, in accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention.

The District’s Prevention Program has been developed in accordance with the issued guidance from the State of California Department of Public Health and Cal/OSHA (Appendix A).

Elements of the COVID-19 Prevention Program include:

### (1) System for communicating.

The District will do all of the following in a form readily understandable by employees:

# COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

## (A) Employee Reports:

All employees of the District are to, without fear of reprisal, report to their Supervisor or Manager any of the following:

1. **COVID-19 symptoms:** If any employee is experiencing any of the identified symptoms of COVID-19
2. **Possible COVID-19 exposures:** If any employee has been exposed or possibly exposed to an individual who is positive for, or has been diagnosed with COVID-19.
3. **Possible COVID-19 hazards at the workplace:** If any employee becomes aware of a possible hazard in the workplace that could increase the likelihood of exposure to COVID-19.

The District and school site COVID-19 response teams ensure implementation of public health measures.

### School Site Response Teams

The school site safety plan will incorporate plans for ensuring all public health measures are implemented and for responding to COVID-19 concerns. School sites will designate staff to serve on the COVID-19 Response Team and these members will regularly communicate the importance of following these safety measures.

In the event of a COVID-19 concern, staff should know who to contact. School staff will follow all the steps outlined in Procedures for Managing Illness and Preventing Spread of COVID-19 in the SCUSD Community. The assigned school nurse is trained to coordinate the documentation and tracking of possible exposure, in order to notify local health officials, staff and families in a prompt and responsible manner. Each incident of COVID-19 illness will be reviewed and procedures will be revised or updated as needed to prevent further cases.

### District Response Team

The District shall routinely revise and update plans and procedures for ensuring all public health measures are implemented and for responding to COVID-19 concerns. Designated department leads are identified for ensuring public health mitigation measures are implemented and followed. Procedures are outlined for responding to any concerns about a COVID-19 concern – view the below link to the District’s Procedures for Managing Illness and Preventing Spread of COVID-19 in the SCUSD Community.

[Return to Health - Health and Safety Plan During COVID-19](#)

## (B) Procedures for accommodating employees with medical or other conditions that put them at increased risk of severe COVID-19 illness.

Employees who have a pre-existing medical condition may request an accommodation through the established interactive process pursuant to District Administrative Regulation 4032.

## (C) Access to COVID-19 testing.

If testing is required in accordance with this written program, the District shall inform any affected employees of the reason for the COVID-19 testing and the possible consequences of a positive test.

# COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

Student Support and Health Services (SSHS) Communicable disease monitoring and response is an ongoing responsibility of Health Services staff. SSHS will follow the guidelines and procedure outlined in Procedures for COVID-19 Cases in the SCUSD Community to respond to positive cases and close contacts in order to reduce the spread of COVID-19 in the community.

SHS will keep up to date with current information and update district and school site administrators regarding the guidance received from SCPH, CDPH and CDC.

- SSHS staff will verify any reported concern and initiate contact tracing procedures, including speaking directly to families and/or staff.
- SSHS will coordinate the response to a reported case. Health Services staff will provide information and guidance to individuals, families, administrators and staff regarding quarantine, isolation and testing to ensure public health protocols are followed.

(D) COVID-19 hazards and the District's COVID-19 policies and procedures to protect employees and other employers, persons, and entities within or in contact with the employer's workplace.

[Return to Health - Health and Safety Plan During COVID-19](#)

*NOTE: See subsections (c)(3)(C) and (c)(3)(D) for confidentiality requirements for COVID-19 cases.*

## (2) Identification and evaluation of COVID-19 hazards.

### (A) identification and evaluation of COVID-19 hazards

The District will include opportunities for employee and authorized employee representative participation in the identification and evaluation of COVID-19 hazards as follows;

Employees should make every effort to correct hazards immediately within their control. Other hazards should be reported immediately to the employee's supervisor. Employees may also use the Employee Hazard Reporting Form to report hazards (anonymously, if they so wish). The form should be submitted to Maintenance with a work order or Risk Management.

All Inspection Reports should be forwarded to Maintenance and Operations with appropriate work orders, if needed. Employee Hazard Reporting Forms should be forwarded to Maintenance and Operations where appropriate work orders will be completed if needed. Any work orders dealing with safety issues will be prioritized according to the seriousness of the hazard and completed in a timely manner.

### (B) Employee Symptom Screening

The District has implemented a process for screening employees for and responding to employees with COVID-19 symptoms.

When a student or staff member is sick, is a close contact to someone with COVID-19, or tests positive for COVID-19, action must be taken immediately to keep the individual away from school or work to limit the risk of exposure to others. Sac City Unified Health Services will be supporting SCPH and meeting employer mandates by conducting COVID-19 contact tracing/communicable disease follow-up within the District. Below are the action guidelines followed when a person within the District becomes ill with suspected or confirmed COVID-19 illness. Community contact tracing, including follow-up with

# COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

family, friends and contacts outside of the District, is conducted by and is the role of the Sacramento County Public Health county department.

## Contact Tracing/Communicable Disease Follow-Up

Contact tracing is a process that slows the spread of infectious diseases, including COVID-19. Laboratories and medical providers send the names of people who have recently been diagnosed with COVID-19 to their local health department. The health department asks each person diagnosed with COVID-19 about people with whom they've recently had close contact. These individuals are then alerted that they may have been exposed to the COVID-19 virus, and they are advised to quarantine. The contact tracing process should remain anonymous and confidential, therefore the name of the person who may have exposed them is not shared. The sooner health officials can alert close contacts, the lower the risk of the COVID-19 virus spreading further. Employers and schools are required to respond to cases of COVID-19 in order to prevent spread at school/work sites. School district staff perform contact tracing as it related to exposures at the school/work sites. See below District Contact Tracing Procedures.

California residents are advised to sign up for the CA Notify alert system <https://canotify.ca.gov/>, California's cell phone exposure notification system to get COVID-19 exposure alerts and to protect those around you.

## [Return to Health - Health and Safety Plan During COVID-19](#)

### (C) Response to COVID-19 case

The District has developed COVID-19 policies and procedures to respond effectively and immediately to individuals at the workplace who are a COVID-19 case to prevent or reduce the risk of transmission of COVID-19 in the workplace.

1. When a student or staff member has one or more COVID-19 symptoms they must follow the Screening and Stay at Home Requirements (Appendix B). If an individual has symptoms on site follow guidance in Taking Care of a Sick Person at School (Appendix F).
2. When a student or staff member is diagnosed with or tests positive for COVID-19 or is a close contact of someone with COVID-19 they must report to the Site COVID-19 Response Team Lead or site administrator. Advise the person to stay home until further advised by Health Services.

The Site COVID Response Team Lead will immediately contact Student Support and Health Services via email and/or cell phone:

- Lisa Musser, RN, Health Services Coordinator II (916) 826-4863 (district cell)
  - email: Lisa-Musser@scusd.edu
- Paula Kuhlman, RN Lead School Nurse — (916) 320-1538 (district cell)
  - email: paula-kuhlman@scusd.edu
- Victoria Flores, Director III, Student Support and Health Services (916) 752-3643 (district cell)
  - email: victoria-flores@scusd.edu
- Rebecca Wall, Health Services Technician — (916) 643-7963; cell (916) 826-3513
  - email: rebecca-wall@scusd.edu

# COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

- Health Services Main Line — (916) 643-9412

3. Health Services staff will contact the individual. After explaining contact tracing requirements and confidentiality requirements, they will gather information about the illness or exposure to determine onset date, infectious period, isolation or quarantine periods, and potential exposures to other staff or students. They will provide information and guidance for self-care and return to work.

## [Return to Health - Health and Safety Plan During COVID-19](#)

### (D) Workplace Assessment

The District will conduct a workplace-specific assessment to identify all interactions, areas, activities, processes, equipment, and materials that could potentially expose employees to COVID-19 hazards.

The District will take universal precautions and treat all persons, regardless of symptoms or negative COVID-19 test results, as potentially infectious.

1. This shall include identification of places and times when people may congregate or come in contact with one another, regardless of whether employees are performing an assigned work task or not, for instance during meetings or trainings and including in and around entrances, bathrooms, hallways, aisles, walkways, elevators, break or eating areas, cool-down areas, and waiting areas.
2. This shall include an evaluation of employees' potential workplace exposure to all persons at the workplace or who may enter the workplace, including coworkers, employees of other entities, members of the public, customers or clients, and independent contractors. Employers shall consider how employees and other persons enter, leave, and travel through the workplace, in addition to addressing fixed work locations.

### (E) Ventilation Systems

For indoor locations, the District will evaluate how to maximize the quantity of outdoor air and whether it is possible to increase filtration efficiency to the highest level compatible with the existing ventilation system.

To protect students, staff and visitors to school sites, SCUSD staff will evaluate all spaces and make modifications in order to maximize ventilation and meet physical distancing requirements of at least 6 feet, and to minimize mixing between groups.

SCUSD is ensuring there is sufficient ventilation in all school classrooms and shared workspaces per the Centers for Disease Control (CDC) and the American Society of Heating, Refrigerating, and Air-Conditioning.

- HVAC filters will be replaced 3 times per year rather than once per year as is currently the practice. MERV-13 filters will be installed wherever possible.
- HVAC units are programmed to turn-on and run continuously for a minimum of 2 hours before and for a minimum of 2 hours after classrooms are occupied.
- HVAC systems are reprogrammed to run continuously when windows and doors are open
- In order to maximize outside airflow, windows and doors will be opened so long as it is deemed safe to do so.

# COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

- Portable HEPA filtration units will be provided in classrooms where MERV-13 filtration is not available.
- Specific practices to avoid:
  - » Classrooms or buses with no ventilation or additional airflow
  - » Classrooms or buses with increased airflow across occupants (e.g., oscillating or box fans blowing into the classroom)

## [Return to Health - Health and Safety Plan During COVID-19](#)

### (F) Ongoing monitoring and review of orders and guidance

The District will monitor and review applicable orders and guidance from the State of California and the local health department related to COVID-19 hazards and prevention, including information of general application and information specific to the employer's industry, location, and operations.

### (G) Evaluate existing prevention controls

The District will evaluate existing COVID-19 prevention controls at the workplace and the need for different or additional controls. These roles and responsibilities must be widely shared with responsible staff and also be included in Staff Handbooks, Student/Parent Handbooks, planners or other communication means.

#### **Administrator Checklist - [Daily Inspection Form](#)**

- Follow all Individual Health Precautions for Students and Staff and Mitigation Standards for SCUSD Sites.
- Personal prevention practices, such as physical distancing, hand hygiene, cloth face coverings and cough/sneeze etiquette are important principles to reduce the spread of COVID-19. (CDC).
- Actively model and support all required public health measures. Teach everyone it is OK to correct each other — use “please” and “thank you” to everyone when reminded about public health measures.
- Make changes to site physical spaces and/or implement policies to enforce mitigation measures.
- Provide frequent communication about COVID-19 and cold/flu prevention efforts for students and staff. Use all modalities — email, announcements on speakers, announcements by teachers, signage, and direct instructions at staff meetings.
- Designate staff liaison(s) to be responsible for responding to COVID-19 concerns. Employees should know who they are and how to contact them.
- Ensure posters are placed in impactful areas. Signage should be visible in all bathrooms, classrooms, and public spaces. Post information on social media regularly. Distribute flyers and posters widely on the following topics:
  - Signs and Symptoms of COVID-19

# COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

- Physical distancing
- Face covering guidance
- Stay home when sick guidelines
- Cough and sneeze hygiene
- Occupancy limits
- Mental Well-Being and Crisis Support Lines
- Know and ensure that staff follows Communicable Disease Response Protocols for Illness during COVID-19 Pandemic. Contact Health Services immediately if:
  - A student or staff is diagnosed with, is suspected of having, or has been exposed to COVID-19 or other reportable communicable disease.
  - Consult Health Services if a large number of the school population or any single class is sick with similar symptoms
  - Ensure teaching staff provides students with distance learning opportunities, full-credit options, and extended time to complete missing assignments due to illness related absences.
  - Ensure staff and student attendance is entered in a timely manner on a daily basis. Document and take notice of any patterns of absences with similar symptoms.
  - Encourage electronic communication, including submitting and/or sharing electronic forms (i.e. documents requiring signature, homework submission, etc).
  - Provide a separate designated space and supervision for students who need first aid, medication administration, procedures at school, etc. (i.e. Well Student Area).
  - Provide designated space and supervision for students who need first aid, medication administration, procedures at school, etc. (i.e. Well Student Area).
  - Reinforce Stay at Home Requirements (Appendix B) by sending home any students or staff who have signs or symptoms of illness.
  - Ensure office staff have appropriate resources to support sick students or staff including non-touch thermometer, face covering/mask, water and hand soap, hand sanitizer, facial tissues, gloves, goggles or face shields.
  - Follow all guidance provided by Student Support and Health Services (SSHS) and Sacramento County Public Health (SCPH).
  - Ensure all appropriate staff are aware of students with health needs and are familiar with any Emergency Care Plans, including all substitute staff.

# COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

- Encourage activities and strategies that promote positive coping for Adults and Children during times of stress.
- Direct any person with heightened concerns to District resources and SCPH resources. Discuss concerns with School Nurse and/or Student Support and Health Services staff.

## (H) Periodic Inspections

The District will conduct periodic inspections as needed to identify unhealthy conditions, work practices, and work procedures related to COVID-19 and to ensure compliance with employers' COVID-19 policies and procedures.

## (3) Investigating and responding to COVID-19 cases in the workplace.

### (A) Procedure to investigate COVID-19 cases in the workplace.

This includes procedures for verifying COVID-19 case status, receiving information regarding COVID-19 test results and onset of COVID-19 symptoms, and identifying and recording COVID-19 cases.

### (B) Response to a COVID-19 case in the workplace:

The District will take all of the following steps in response to a COVID-19 case in the workplace.

1. Determine the day and time the COVID-19 case was last present and, to the extent possible, the date of the positive COVID-19 test(s) and/or diagnosis, and the date the COVID-19 case first had one or more COVID-19 symptoms, if any were experienced.
2. Determine who may have had a COVID-19 exposure. This requires an evaluation of the activities of the COVID-19 case and all locations at the workplace which may have been visited by the COVID-19 case during the high-risk exposure period.

*Note: See subsection (c)(10) for exclusion requirements for employees with COVID-19 exposure.*

3. Give notice of the potential COVID-19 exposure, within one business day, in a way that does not reveal any personal identifying information of the COVID-19 case, to the following:
  - a. All employees who may have had COVID-19 exposure and their authorized representatives.
  - b. Independent contractors and other employers present at the workplace during the high-risk exposure period.
4. Offer COVID-19 testing at no cost to employees during their working hours to all employees who had potential COVID-19 exposure in the workplace and provide them with the information on benefits described in subsections (c)(5)(B) and (c)(10)(C).
5. Investigate whether any workplace conditions could have contributed to the risk of COVID-19 exposure and what could be done to reduce exposure to COVID-19 hazards. (C) Confidentiality of Personal Identifying Information

All personally identifying information regarding COVID-19 cases or persons with COVID-19 symptoms shall be kept confidential. All COVID-19 testing or related medical services provided by the employer

# COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

under this section and sections 3205.1 through 3205.4 shall be provided in a manner that ensures the confidentiality of employees.

*EXCEPTION to subsection (c)(3)(C): Un-redacted information on COVID-19 cases shall be provided to the local health department, CDPH, the Division, the National Institute for Occupational Safety and Health (NIOSH), or as otherwise required by law immediately upon request.*

## (D) Confidentiality of Employee Medical Records

All Employee medical records are kept confidential and are not disclosed or reported without the employee's express written consent to any person within or outside the workplace.

*EXCEPTION 1 to subsection (c)(3)(D): Un-redacted medical records shall be provided to the local health department, CDPH, the Division, NIOSH, or as otherwise required by law immediately upon request.*

*EXCEPTION 2 to subsection (c)(3)(D): This provision does not apply to records that do not contain individually identifiable medical information or from which individually identifiable medical information has been removed.*

## (4) Correction of COVID-19 hazards.

The District has implemented policies and/or procedures for correcting unsafe or unhealthy conditions, work practices, policies and procedures in a timely manner based on the severity of the hazard.

Each Principal/Department Head/Supervisor shall be fully responsible and accountable to the Superintendent/Assistant Superintendent for compliance with the provisions of the program within his/her school site/department. He/she should ensure that:

- Prompt, corrective action is taken wherever hazards are recognized or unsafe acts are observed. Each principal/department head/supervisor is accountable for the preventable injuries, collisions, and liabilities incurred by his/her employees.
- Written documentation is maintained at each site reflecting corrective action taken.

## (5) Training and instruction.

The District has developed a training program through HourZero mandated training portal for all employees with instruction to employees including, but not limited to, the following:

- The District's COVID-19 policies and procedures to protect employees from COVID-19 hazards.
- Information regarding COVID-19-related benefits to which the employee may be entitled under applicable federal, state, or local laws. This includes any benefits available under workers' compensation law, the federal Families First Coronavirus Response Act, Labor Code sections 248.1 and 248.5, Labor Code sections 3212.86 through 3212.88, local governmental requirements, the employer's own leave policies, and leave guaranteed by contract.
- The fact that COVID-19 is an infectious disease that can be spread through the air when an infectious person talks or vocalizes, sneezes, coughs, or exhales; that COVID-19 may be transmitted when a person touches a contaminated object and then touches their eyes, nose, or mouth, although that is less common; and that an infectious person may have no symptoms.

# COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

- Methods of physical distancing of at least six feet and the importance of combining physical distancing with the wearing of face coverings.
- The fact that particles containing the virus can travel more than six feet, especially indoors, so physical distancing must be combined with other controls, including face coverings and hand hygiene, to be effective.
- The importance of frequent hand washing with soap and water for at least 20 seconds and using hand sanitizer when employees do not have immediate access to a sink or hand washing facility, and that hand sanitizer does not work if the hands are soiled.
- Proper use of face coverings and the fact that face coverings are not respiratory protective equipment.
- COVID-19 symptoms, and the importance of not coming to work and obtaining a COVID-19 test if the employee has COVID-19 symptoms.

## (6) Physical distancing.

(A) All employees will be separated from other persons by at least six feet (except where it can be demonstrated that six feet of separation is not possible, and except for momentary exposure while persons are in movement)

Methods of physical distancing include:

- Telework or other remote work arrangements, where feasible;
- Reducing the number of persons in an area at one time, including visitors;
- Visual cues such as signs and floor markings to indicate where employees and others should be located or their direction and path of travel;
- Staggered arrival, departure, work, and break times;
- Adjusted work processes or procedures, to allow greater distance between employees.

(B) When it is not possible to maintain a distance of at least six feet, individuals shall be as far apart as possible.

Everyone must practice physical distancing. This means keeping at least 6 feet from other people at all times. Maintaining adequate space is one of the best tools available to avoid exposure to COVID-19 and slow its spread. Appropriate physical distancing can sometimes be difficult to maintain, such as when walking in a busy hallway or in large crowds, making required face coverings even more vital.

## [Return to Health - Health and Safety Plan During COVID-19](#)

## (7) Face coverings.

(A) The District will:

- Comply with all public health orders regarding face coverings
- Provide face coverings to all employees as needed
- Ensure they are worn by employees over the nose and mouth when;
  - indoors,
  - when outdoors and less than six feet away from another person,
  - and where required by orders from the CDPH or local health department.

# COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

- Ensure face coverings are clean and undamaged.
- Ensure face shields are not used as a replacement for face coverings, although they may be worn together for additional protection.
- The following are exceptions to the face coverings requirement:
  1. When an employee is alone in a room.
  2. While eating and drinking at the workplace, provided employees are at least six feet apart and outside air supply to the area, if indoors, has been maximized to the extent possible.
  3. Employees wearing respiratory protection in accordance with section 5144 or other title 8 safety orders.
  4. Employees who cannot wear face coverings due to a medical or mental health condition or disability, or who are hearing-impaired or communicating with a hearing-impaired person.
  5. Specific tasks which cannot feasibly be performed with a face covering. This exception is limited to the time period in which such tasks are actually being performed, and the unmasked employee shall be at least six feet away from all other persons unless unmasked employees are tested at least twice weekly for COVID-19.

*NOTE: CDPH has issued guidance for employers that identifies examples when wearing a face covering is likely not feasible.*

(B) Employees exempted from wearing face coverings due to a medical condition, mental health condition, or disability shall wear an effective non-restrictive alternative, such as a face shield with a drape on the bottom, if their condition or disability permits it.

(C) Any employee not wearing a face covering, face shield with a drape or other effective alternative, or respiratory protection, for any reason, shall be at least six feet apart from all other persons unless the unmasked employee is tested at least twice weekly for COVID-19. COVID-19 testing cannot be used as an alternative to face coverings when face coverings are otherwise required.

(D) The District will not prevent any employee from wearing a face covering when required, unless it would create a safety hazard, such as interfering with the safe operation of equipment.

(E) The District will implement the following measures to communicate to non-employees the face coverings requirements on their premises:

Visual aids in the form of posters, wall/floor decals. Site and Department administrators informing visitors prior to entering any district facility or building.

(F) The District has developed COVID-19 policies and procedures to minimize employee exposure to COVID-19 hazards originating from any person not wearing a face covering, including a member of the public. The policies include;

Adequate supply for all staff, students and public on every district campus and facility.

Continual efforts will be made using positive reinforcement teaching strategies to ensure face coverings are worn properly. If a concern about wearing masks arises, notify the assigned School

# COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

Nurse and/or Health Services or assigned supervisor immediately for additional support. Each unique situation will be assessed and support strategies will be employed for the well-being and safety of all.

## (8) Other engineering controls, administrative controls, and personal protective equipment.

### Inventory Controls

- Order supplies for start and plan for inventory management:
  - Face coverings for students and staff, individuals may use their own face covering that meets all current requirements
  - Disposable face coverings for care room
  - Face shields or goggles for sick room and for teachers
  - Hand sanitizer — in every room, used by every individual entering
  - Spray bottles and disinfectant and paper towels — every room to clean surfaces
  - Gloves - for use in case of vomiting or helping sick or injured student
  - Thermometers - thermometer needed at each site for sick room
  - Handwashing stations if insufficient sink access at sites
- Back stock of Personal Protective Equipment (PPE)
- Proper ordering procedures from central location/system
- Use of district-approved products only

### (A) Partitions

At fixed work locations where it is not possible to maintain the physical distancing requirement at all times, the District will install cleanable solid partitions that effectively reduce aerosol transmission between the employee and other persons.

### (B) Maximize Outdoor Air

For buildings with mechanical or natural ventilation, or both, the District will maximize the quantity of outside air provided to the extent feasible, except when the United States Environmental Protection Agency (EPA) Air Quality Index is greater than 100 for any pollutant or if opening windows or letting in outdoor air by other means would cause a hazard to employees, for instance from excessive heat or cold.

### (C) Cleaning and Disinfecting

The District has implemented cleaning and disinfecting procedures, which require:

1. Identifying and regularly cleaning and disinfecting frequently touched surfaces and objects, such as doorknobs, elevator buttons, equipment, tools, handrails, handles, controls, bathroom surfaces, and steering wheels. The District will inform employees and authorized employee representatives of cleaning and disinfection protocols, including the planned frequency and scope of regular cleaning and disinfection.
2. Prohibiting the sharing of personal protective equipment and to the extent feasible, items that employees come in regular physical contact with such as phones, headsets, desks, keyboards, writing materials, instruments, and tools. When it is not feasible to prevent sharing, sharing shall be minimized

# COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

and such items and equipment shall be disinfected between uses by different people. Sharing of vehicles shall be minimized to the extent feasible, and high touch points (steering wheel, door handles, seatbelt buckles, armrests, shifter, etc.) shall be disinfected between users.

3. Cleaning and disinfection of areas, material, and equipment used by a COVID-19 case during the high-risk exposure period.

*NOTE: Cleaning and disinfecting must be done in a manner that does not create a hazard to employees. See Group 2 and Group 16 of the General Industry Safety Orders for further information.*

## (D) Handwashing Facilities

To protect employees from COVID-19 hazards, the District will evaluate its handwashing facilities, determine the need for additional facilities, encourage and allow time for employee handwashing, and provide employees with an effective hand sanitizer. Employers shall encourage employees to wash their hands for at least 20 seconds each time. Provision or use of hand sanitizers with methyl alcohol is prohibited.

## (E) Personal protective equipment.

1. The District will evaluate the need for personal protective equipment to prevent exposure to COVID-19 hazards, such as gloves, goggles, and face shields, and provide such personal protective equipment as needed.
2. The District will evaluate the need for respiratory protection in accordance with section 5144 when the physical distancing requirements in subsection (c)(6) are not feasible or are not maintained.
3. The District will provide and ensure use of respirators in accordance with section 5144 when deemed necessary by the Division through the Issuance of Order to Take Special Action, in accordance with title 8 section 332.3.
4. The District will provide and ensure use of eye protection and respiratory protection in accordance with section 5144 when employees are exposed to procedures that may aerosolize potentially infectious material such as saliva or respiratory tract fluids.

*NOTE: Examples of work covered by subsection (c)(8)(E)4. include, but are not limited to, certain dental procedures and outpatient medical specialties not covered by section 5199.*

## (9) Reporting, recordkeeping, and access.

### (A) Local Public Health

The District will report information about COVID-19 cases at the workplace to the local health department whenever required by law, and shall provide any related information requested by the local health department.

### (B) Cal/OSHA

The District will report immediately to the Division any COVID-19-related serious illnesses or death, as defined under section 330(h), of an employee occurring in a place of employment or in connection with any employment.

# COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

## (C) Injury & Illness Prevention Program

The District will maintain records of the steps taken to implement the written COVID-19 Prevention Program in accordance with section 3203(b).

## (D) Access to the COVID-19 Prevention Program

The written COVID-19 Prevention Program shall be made available at the workplace to employees, authorized employee representatives, and to representatives of the Division immediately upon request.

## (E) Access to COVID-19 Case Records

The District will keep a record of and track all COVID-19 cases with the employee's name, contact information, occupation, location where the employee worked, the date of the last day at the workplace, and the date of a positive COVID-19 test. Medical information shall be kept confidential in accordance with subsections (c)(3)(C) and (c)(3)(D). The information shall be made available to employees, authorized employee representatives, or as otherwise required by law, with personal identifying information removed.

*Note: Subsection (c)(9)(E) does not alter the right of employees or their representatives to request and obtain an employer's Log of Work-Related Injuries and Illnesses (Log 300), without redaction, or to request and obtain information as otherwise allowed by law.*

## (10) Exclusion of COVID-19 cases.

As the CDC advises, the most important actions for districts and school administrators to take while providing services and reopening schools for in-person learning is planning and preparing. The following Return to Health plan outlines all the procedures, policies and details for our community to follow to [Return to Health - Health and Safety Plan During COVID-19](#).

The purpose of this section is to limit transmission of COVID-19 in the workplace.

### (A) COVID-19 Cases

The District will ensure that COVID-19 cases are excluded from the workplace until the return to work requirements in section 11 are met.

### (B) COVID-19 Exposure Cases

The District will exclude employees with COVID-19 exposure from the workplace for 14 days after the last known COVID-19 exposure to a COVID-19 case.

### (C) Earnings & Benefits while excluded

For employees excluded from work and otherwise able and available to work, the District will continue and maintain the employee's earnings, seniority, and all other employee rights and benefits, including the employee's right to their former job status, as if the employee had not been removed from their job.

The District may use employer-provided employee sick leave benefits for this purpose and consider benefit payments from public sources in determining how to maintain earnings, rights and benefits, where permitted by law and when not covered by workers' compensation.

# COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

*EXCEPTION 1: Subsection (c)(10)(C) does not apply to any period of time during which the employee is unable to work for reasons other than protecting persons at the workplace from possible COVID-19 transmission.*

*EXCEPTION 2: Subsection (c)(10)(C) does not apply where the employer demonstrates that the COVID-19 exposure is not work related.*

(D) This section does not limit any other applicable law, employer policy, or collective bargaining agreement that provides for greater protections.

## (E) Information on Benefits & Leaves

At the time of exclusion, the District will provide the employee the information on available benefits and leaves as required.

*EXCEPTION to subsection (c)(10): Employees who have not been excluded or isolated by the local health department need not be excluded by the employer, if they are temporarily reassigned to work where they do not have contact with other persons until the return to work requirements of subsection (c)(11) are met.*

## (11) Return to work criteria.

When a student or staff member is diagnosed with or tests positive for COVID-19 or is a close contact of someone with COVID-19 they must report to the Site COVID Response Team Lead or site administrator. Advise the person to stay home until further advised by Health Services.

[Return to Health - Health and Safety Plan During COVID-19.](#)

### (A) COVID-19 cases with COVID-19 symptoms shall not return to work until:

1. At least 24 hours have passed since a fever of 100.4 or higher has resolved without the use of fever-reducing medications;
2. COVID-19 symptoms have improved; and
3. At least 10 days have passed since COVID-19 symptoms first appeared.

### (B) COVID-19 cases who tested positive but never developed COVID-19 symptoms

Shall not return to work until a minimum of 10 days have passed since the date of specimen collection of their first positive COVID-19 test.

### (C) A negative COVID-19 test shall not be required for an employee to return to work.

### (D) If an order to isolate or quarantine an employee is issued by a local or state health official

The employee shall not return to work until the period of isolation or quarantine is completed or the order is lifted. If no period was specified, then the period shall be:

- 10 days from the time the order to isolate was effective, or
- 14 days from the time the order to quarantine was effective.

# COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

## Guidance from the California Department of Public Health:

[Guidance on Returning to Work or School Following COVID-19 Diagnosis](#)

[Self-Quarantine Instructions for Individuals Exposed to COVID-19](#)

[Self-Quarantine Guidance for Individuals Exposed to COVID-19](#) These instructions are for people who have been in close contact with someone who has been diagnosed with COVID-19.

[Self-Isolation Instructions for Individuals Who Have or Likely Have COVID-19](#)

[Self-Isolation Guidance for Individuals Who Have or Likely Have COVID-19](#) These instructions are for people who have or likely have COVID-19. They include information for households, families, caregivers, or close contacts.

## (E) Division approval of return to work

If there are no violations of local or state health officer orders for isolation or quarantine, the Division may, upon request, allow employees to return to work on the basis that the removal of an employee would create undue risk to a community's health and safety. In such cases, the District will develop, implement, and maintain effective control measures to prevent transmission in the workplace including providing isolation for the employee at the workplace and, if isolation is not possible, the use of respiratory protection in the workplace.

*Note: Authority cited: Section 142.3, Labor Code. Reference: Sections 142.3 and 144.6, Labor Code.*

## § 3205.1. Multiple COVID-19 Infections and COVID-19 Outbreaks.

### (a) Scope.

(1) This section applies to a place of employment covered by section the District COVID-19 Prevention Program if:

- The exposed workplace has been identified by a local health department as the location of a COVID-19 outbreak or,
- When there are three or more COVID-19 cases in an exposed workplace within a 14-day period.

(2) This section shall apply until there are no new COVID-19 cases detected in a workplace for a 14-day period.

### (b) COVID-19 testing.

(1) The District will provide COVID-19 testing to all employees at the exposed workplace except for employees who were not present during the period of an outbreak identified by a local health department or the relevant 14-day period(s) under subsection (a), as applicable. COVID-19 testing shall be provided at no cost to employees during employees' working hours.

(2) COVID-19 testing shall consist of the following:

(A) Immediately upon being covered by this section, all employees in the exposed workplace shall be tested and then tested again one week later. Negative COVID-19 test results of employees with COVID-19 exposure shall not impact the duration of any quarantine period required by, or orders issued by, the local health department.

# COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

(B) After the first two COVID-19 tests required by (b)(2)(A), The District will provide continuous COVID-19 testing of employees who remain at the workplace at least once per week, or more frequently if recommended by the local health department, until this section no longer applies pursuant to subsection (a)(2).

(C) District will provide additional testing when deemed necessary by the Division through the Issuance of Order to Take Special Action, in accordance with title 8 section 332.3.

## (c) Exclusion of COVID-19 cases.

The District will ensure COVID-19 cases and employees who had COVID-19 exposure are excluded from the workplace in accordance with our COVID-19 Prevention Program and local health officer orders if applicable.

## (d) Investigation of workplace COVID-19 illness.

The District will immediately investigate and determine possible workplace related factors that contributed to the COVID-19 outbreak in accordance with our COVID-19 Prevention Program.

## (e) COVID-19 Investigation, review and hazard correction.

In addition to the requirements of our COVID-19 Prevention Program the District will immediately perform a review of potentially relevant COVID-19 policies, procedures, and controls and implement changes as needed to prevent further spread of COVID-19. The investigation and review shall be documented and include:

(1) Investigation of new or unabated COVID-19 hazards including the employer's leave policies and practices and whether employees are discouraged from remaining home when sick; the employer's COVID-19 testing policies; insufficient outdoor air; insufficient air filtration; and lack of physical distancing.

(2) The review shall be updated every thirty days that the outbreak continues, in response to new information or to new or previously unrecognized COVID-19 hazards, or when otherwise necessary.

(3) The District will implement changes to reduce the transmission of COVID-19 based on the investigation and review required by our COVID-19 Prevention Program. The District will consider moving indoor tasks outdoors or having them performed remotely, increasing outdoor air supply when work is done indoors, improving air filtration, increasing physical distancing as much as possible, respiratory protection, and other applicable controls.

## (f) Notifications to the local health department.

(1) The District will contact the local health department immediately but no longer than 48 hours after the employer knows, or with diligent inquiry would have known, of three or more COVID-19 cases for guidance on preventing the further spread of COVID-19 within the workplace.

(2) The District will provide to the local health department the total number of COVID-19 cases and for each COVID-19 case, the name, contact information, occupation, workplace location, business address, the hospitalization and/or fatality status, and North American Industry Classification System

# COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

code of the workplace of the COVID-19 case, and any other information requested by the local health department. The District will continue to give notice to the local health department of any subsequent COVID-19 cases at the workplace.

(3) Effective January 1, 2021, the District will provide all information to the local health department required by Labor Code section 6409.6.

*Note: Authority cited: Section 142.3, Labor Code. Reference: Sections 142.3 and 144.6, Labor Code.*

§ 3205.2. Major COVID-19 Outbreaks.

## (a) Scope.

(1) This section applies to any place of employment covered by our COVID-19 Prevention Program when:

- There are 20 or more COVID-19 cases in an exposed workplace within a 30-day period.

(2) This section shall apply until there are no new COVID-19 cases detected in a workplace for a 14-day period.

## (b) COVID-19 testing.

The description below outlines increased levels of testing in the higher tiers due to the increased spread of COVID in the community and the higher likelihood that someone in the school community will be infected with COVID.

### Testing Frequency for Education Staff and K-12 Students

Yellow: Case Rate less than 1\* - Test Positivity below 2%

Symptomatic and response testing

Orange: Case Rate 1-3.9 Test Positivity 2 – 4.9%

Symptomatic and response testing

Red: Case Rate 4-7 Test Positivity 5-8%

Symptomatic and response testing AND Every 2 weeks asymptomatic testing

Purple: Case Rate More than 7 test Positivity More than 8%

Symptomatic and response testing AND Every 2 weeks asymptomatic testing

Deep Purple/Black: Case Rate greater than 14

Symptomatic and response testing and Weekly asymptomatic (PCR or twice weekly antigen testing)\*\*

\* The case rates above are adjusted case rates posted on the [CA COVID website](#)

\*\* Weekly asymptomatic testing assumes the use of a PCR test. If antigen testing is used, testing should be completed twice weekly.

Students or staff who have tested positive for active infection with SARS-CoV-2 virus within the last 90 days are exempt from asymptomatic testing

The District will provide twice a week COVID-19 testing, or more frequently if recommended by the local health department, to all employees present at the exposed workplace during the relevant 30-day period(s) and who remain at the workplace.

# COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

COVID-19 testing will be provided at no cost to employees during employees' working hours.

## (c) Exclusion of COVID-19 cases.

The District will ensure COVID-19 cases and employees with COVID-19 exposure are excluded from the workplace in accordance with our COVID-19 Prevention Program and any relevant local health department orders.

## (d) Investigation of workplace COVID-19 illnesses.

The District will comply with the investigation procedures in accordance with our COVID-19 Prevention Program.

## (e) COVID-19 hazard correction.

In addition to the requirements of our COVID-19 Prevention Program, the District will take the following actions:

- (1) In buildings or structures with mechanical ventilation, employers shall filter recirculated air with Minimum Efficiency Reporting Value (MERV) 13 or higher efficiency filters if compatible with the ventilation system. If MERV-13 or higher filters are not compatible with the ventilation system, employers shall use filters with the highest compatible filtering efficiency. Employers shall also evaluate whether portable or mounted High Efficiency Particulate Air (HEPA) filtration units, or other air cleaning systems would reduce the risk of transmission and shall implement their use to the degree feasible.
- (2) The District will determine the need for a respiratory protection program or changes to an existing respiratory protection program under section 5144 to address COVID-19 hazards.
- (3) The District will evaluate whether to halt some or all operations at the workplace until COVID-19 hazards have been corrected.
- (4) Any other control measures deemed necessary by the Division through the Issuance of Order to Take Special Action, in accordance with title 8 section 332.3.

(f) **Notifications to the local health department.** Employers shall comply with the requirements of section 3205.1(f).

*Note: Authority cited: Section 142.3, Labor Code. Reference: Sections 142.3 and 144.6, Labor Code.*

### Subchapter 7. General Industry Safety Orders § 3205. COVID-19 Prevention.

#### (a) Scope.

(1) This section applies to all employees and places of employment, with the following exceptions:

# COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

- (A) Places of employment with one employee who does not have contact with other persons.
- (B) Employees working from home.
- (C) Employees when covered by section 5199.

(2) Nothing in this section is intended to limit more protective or stringent state or local health department mandates or guidance.

(b) Definitions. The following definitions apply to this section and to sections 3205.1 through 3205.4.

“COVID-19” means coronavirus disease, an infectious disease caused by the severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2).

“COVID-19 case” means a person who:

- (1) Has a positive “COVID-19 test” as defined in this section;
- (2) Is subject to COVID-19-related order to isolate issued by a local or state health official; or
- (3) Has died due to COVID-19, in the determination of a local health department or per inclusion in the COVID-19 statistics of a county.

A person is no longer a “COVID-19 case” in this section when a licensed health care professional determines that the person does not have COVID-19, in accordance with recommendations made by the California Department of Public Health (CDPH) or the local health department pursuant to authority granted under the Health and Safety Code or title 17, California Code of Regulations to CDPH or the local health department.

“COVID-19 exposure” means being within six feet of a COVID-19 case for a cumulative total of 15 minutes or greater in any 24-hour period within or overlapping with the “high-risk exposure period” defined by this section. This definition applies regardless of the use of face coverings.

“COVID-19 hazard” means exposure to potentially infectious material that may contain SARS-CoV-2, the virus that causes COVID-19. Potentially infectious materials include airborne droplets, small particle aerosols, and airborne droplet nuclei, which most commonly result from a person or persons exhaling, talking or vocalizing, coughing, sneezing, or procedures performed on persons which may aerosolize saliva or respiratory tract fluids, among other things. This also includes objects or surfaces that may be contaminated with SARS-CoV-2.

“COVID-19 symptoms” means fever of 100.4 degrees Fahrenheit or higher, chills, cough, shortness of breath or difficulty breathing, fatigue, muscle or body aches, headache, new loss of taste or smell, sore throat, congestion or runny nose, nausea or vomiting, or diarrhea, unless a licensed health care professional determines the person’s symptoms were caused by a known condition other than COVID-19.

“COVID-19 test” means a viral test for SARS-CoV-2 that is:

- (1) Approved by the United States Food and Drug Administration (FDA) or has an Emergency Use Authorization from the FDA to diagnose current infection with the SARS-CoV-2 virus; and

# COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

(2) Administered in accordance with the FDA approval or the FDA Emergency Use Authorization as applicable.

“Exposed workplace” means any work location, working area, or common area at work used or accessed by a COVID-19 case during the high-risk period, including bathrooms, walkways, hallways, aisles, break or eating areas, and waiting areas. The exposed workplace does not include buildings or facilities not entered by a COVID-19 case.

Effective January 1, 2021, the “exposed workplace” also includes but is not limited to the “worksite” of the COVID-19 case as defined by Labor Code section 6409.6(d)(5).

“Face covering” means a tightly woven fabric or non-woven material with no visible holes or openings, which covers the nose and mouth.

“High-risk exposure period” means the following time period:

(1) For persons who develop COVID-19 symptoms: from two days before they first develop symptoms until 10 days after symptoms first appeared, and 24 hours have passed with no fever, without the use of fever-reducing medications, and symptoms have improved; or

(2) For persons who test positive who never develop COVID-19 symptoms: from two days before until ten days after the specimen for their first positive test for COVID-19 was collected.

(c) Written COVID-19 Prevention Program. Employers shall establish, implement, and maintain an effective, written COVID-19 Prevention Program, which may be integrated into the employer's Injury and Illness Program required by section 3203, or be maintained in a separate document. The written elements of a COVID-19 Prevention Program shall include:

(1) System for communicating. The employer shall do all of the following in a form readily understandable by employees:

(A) Ask employees to report to the employer, without fear of reprisal, COVID-19 symptoms, possible COVID-19 exposures, and possible COVID-19 hazards at the workplace.

(B) Describe procedures or policies for accommodating employees with medical or other conditions that put them at increased risk of severe COVID-19 illness.

(C) Provide information about access to COVID-19 testing. If testing is required under this section, section 3205.1, or section 3205.2, the employer shall inform affected employees of the reason for the COVID-19 testing and the possible consequences of a positive test.

(D) In accordance with subsection (c)(3)(B)3., communicate information about COVID-19 hazards and the employer's COVID-19 policies and procedures to employees and to other employers, persons, and entities within or in contact with the employer's workplace.

*NOTE: See subsections (c)(3)(C) and (c)(3)(D) for confidentiality requirements for COVID-19 cases.*

(2) Identification and evaluation of COVID-19 hazards.

# COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

(A) The employer shall allow for employee and authorized employee representative participation in the identification and evaluation of COVID-19 hazards.

(B) The employer shall develop and implement a process for screening employees for and responding to employees with COVID-19 symptoms. The employer may ask employees to evaluate their own symptoms before reporting to work. If the employer conducts screening at the workplace, the employer shall ensure that face coverings are used during screening by both screeners and employees and, if temperatures are measured, that non-contact thermometers are used.

(C) The employer shall develop COVID-19 policies and procedures to respond effectively and immediately to individuals at the workplace who are a COVID-19 case to prevent or reduce the risk of transmission of COVID-19 in the workplace.

(D) The employer shall conduct a workplace-specific identification of all interactions, areas, activities, processes, equipment, and materials that could potentially expose employees to COVID-19 hazards. Employers shall treat all persons, regardless of symptoms or negative COVID-19 test results, as potentially infectious.

1. This shall include identification of places and times when people may congregate or come in contact with one another, regardless of whether employees are performing an assigned work task or not, for instance during meetings or trainings and including in and around entrances, bathrooms, hallways, aisles, walkways, elevators, break or eating areas, cool-down areas, and waiting areas.

2. This shall include an evaluation of employees' potential workplace exposure to all persons at the workplace or who may enter the workplace, including coworkers, employees of other entities, members of the public, customers or clients, and independent contractors. Employers shall consider how employees and other persons enter, leave, and travel through the workplace, in addition to addressing fixed work locations.

(E) For indoor locations, the employer shall evaluate how to maximize the quantity of outdoor air and whether it is possible to increase filtration efficiency to the highest level compatible with the existing ventilation system.

(F) The employer shall review applicable orders and guidance from the State of California and the local health department related to COVID-19 hazards and prevention, including information of general application and information specific to the employer's industry, location, and operations.

(G) The employer shall evaluate existing COVID-19 prevention controls at the workplace and the need for different or additional controls. This includes evaluation of controls in subsections (c)(4), and (c)(6) through (c)(8).

(H) The employer shall conduct periodic inspections as needed to identify unhealthy conditions, work practices, and work procedures related to COVID-19 and to ensure compliance with employers' COVID-19 policies and procedures.

(3) Investigating and responding to COVID-19 cases in the workplace.

# COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

(A) Employers shall have an effective procedure to investigate COVID-19 cases in the workplace. This includes procedures for verifying COVID-19 case status, receiving information regarding COVID-19 test results and onset of COVID-19 symptoms, and identifying and recording COVID-19 cases.

(B) The employer shall take the following actions when there has been a COVID-19 case at the place of employment:

1. Determine the day and time the COVID-19 case was last present and, to the extent possible, the date of the positive COVID-19 test(s) and/or diagnosis, and the date the COVID-19 case first had one or more COVID-19 symptoms, if any were experienced.

2. Determine who may have had a COVID-19 exposure. This requires an evaluation of the activities of the COVID-19 case and all locations at the workplace which may have been visited by the COVID-19 case during the high-risk exposure period.

*Note: See subsection (c)(10) for exclusion requirements for employees with COVID-19 exposure.*

3. Give notice of the potential COVID-19 exposure, within one business day, in a way that does not reveal any personal identifying information of the COVID-19 case, to the following:

a. All employees who may have had COVID-19 exposure and their authorized representatives.

b. Independent contractors and other employers present at the workplace during the high-risk exposure period.

4. Offer COVID-19 testing at no cost to employees during their working hours to all employees who had potential COVID-19 exposure in the workplace and provide them with the information on benefits described in subsections (c)(5)(B) and (c)(10)(C).

5. Investigate whether any workplace conditions could have contributed to the risk of COVID-19 exposure and what could be done to reduce exposure to COVID-19 hazards.

(C) Personal identifying information of COVID-19 cases or persons with COVID-19 symptoms shall be kept confidential. All COVID-19 testing or related medical services provided by the employer under this section and sections 3205.1 through 3205.4 shall be provided in a manner that ensures the confidentiality of employees.

EXCEPTION to subsection (c)(3)(C): Unredacted information on COVID-19 cases shall be provided to the local health department, CDPH, the Division, the National Institute for Occupational Safety and Health (NIOSH), or as otherwise required by law immediately upon request.

(D) The employer shall ensure that all employee medical records required by this section and sections 3205.1 through 3205.4 are kept confidential and are not disclosed or reported without the employee's express written consent to any person within or outside the workplace.

EXCEPTION 1 to subsection (c)(3)(D): Unredacted medical records shall be provided to the local health department, CDPH, the Division, NIOSH, or as otherwise required by law immediately upon request.

# COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

EXCEPTION 2 to subsection (c)(3)(D): This provision does not apply to records that do not contain individually identifiable medical information or from which individually identifiable medical information has been removed.

(4) Correction of COVID-19 hazards. Employers shall implement effective policies and/or procedures for correcting unsafe or unhealthy conditions, work practices, policies and procedures in a timely manner based on the severity of the hazard. This includes, but is not limited to, implementing controls and/or policies and procedures in response to the evaluations conducted under subsections (c)(2) and (c)(3) and implementing the controls required by subsection (c)(6) through (c)(8).

(5) Training and instruction. The employer shall provide effective training and instruction to employees that includes the following:

(A) The employer's COVID-19 policies and procedures to protect employees from COVID-19 hazards.

(B) Information regarding COVID-19-related benefits to which the employee may be entitled under applicable federal, state, or local laws. This includes any benefits available under workers' compensation law, the federal Families First Coronavirus Response Act, Labor Code sections 248.1 and 248.5, Labor Code sections 3212.86 through 3212.88, local governmental requirements, the employer's own leave policies, and leave guaranteed by contract.

(C) The fact that COVID-19 is an infectious disease that can be spread through the air when an infectious person talks or vocalizes, sneezes, coughs, or exhales; that COVID-19 may be transmitted when a person touches a contaminated object and then touches their eyes, nose, or mouth, although that is less common; and that an infectious person may have no symptoms.

(D) Methods of physical distancing of at least six feet and the importance of combining physical distancing with the wearing of face coverings.

(E) The fact that particles containing the virus can travel more than six feet, especially indoors, so physical distancing must be combined with other controls, including face coverings and hand hygiene, to be effective.

(F) The importance of frequent hand washing with soap and water for at least 20 seconds and using hand sanitizer when employees do not have immediate access to a sink or hand washing facility, and that hand sanitizer does not work if the hands are soiled.

(G) Proper use of face coverings and the fact that face coverings are not respiratory protective equipment.

(H) COVID-19 symptoms, and the importance of not coming to work and obtaining a COVID-19 test if the employee has COVID-19 symptoms.

(6) Physical distancing.

(A) All employees shall be separated from other persons by at least six feet, except where an employer can demonstrate that six feet of separation is not possible, and except for momentary exposure while persons are in movement. Methods of physical distancing include: telework or other remote work arrangements; reducing the number of persons in an area at one time, including visitors; visual cues

# COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

such as signs and floor markings to indicate where employees and others should be located or their direction and path of travel; staggered arrival, departure, work, and break times; and adjusted work processes or procedures, such as reducing production speed, to allow greater distance between employees.

(B) When it is not possible to maintain a distance of at least six feet, individuals shall be as far apart as possible.

(7) Face coverings.

(A) Employers shall provide face coverings and ensure they are worn by employees over the nose and mouth when indoors, when outdoors and less than six feet away from another person, and where required by orders from the CDPH or local health department. Employers shall ensure face coverings are clean and undamaged. Face shields are not a replacement for face coverings, although they may be worn together for additional protection. The following are exceptions to the face coverings requirement:

1. When an employee is alone in a room.
2. While eating and drinking at the workplace, provided employees are at least six feet apart and outside air supply to the area, if indoors, has been maximized to the extent possible.
3. Employees wearing respiratory protection in accordance with section 5144 or other title 8 safety orders.
4. Employees who cannot wear face coverings due to a medical or mental health condition or disability, or who are hearing-impaired or communicating with a hearing-impaired person.
5. Specific tasks which cannot feasibly be performed with a face covering. This exception is limited to the time period in which such tasks are actually being performed, and the unmasked employee shall be at least six feet away from all other persons unless unmasked employees are tested at least twice weekly for COVID-19.

*NOTE: CDPH has issued guidance for employers that identifies examples when wearing a face covering is likely not feasible.*

(B) Employees exempted from wearing face coverings due to a medical condition, mental health condition, or disability shall wear an effective non-restrictive alternative, such as a face shield with a drape on the bottom, if their condition or disability permits it.

(C) Any employee not wearing a face covering, face shield with a drape or other effective alternative, or respiratory protection, for any reason, shall be at least six feet apart from all other persons unless the unmasked employee is tested at least twice weekly for COVID-19. Employers may not use COVID-19 testing as an alternative to face coverings when face coverings are otherwise required by this section.

(D) No employer shall prevent any employee from wearing a face covering when not required by this section, unless it would create a safety hazard, such as interfering with the safe operation of equipment.

# COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

(E) Employers shall implement measures to communicate to non-employees the face coverings requirements on their premises.

(F) The employer shall develop COVID-19 policies and procedures to minimize employee exposure to COVID-19 hazards originating from any person not wearing a face covering, including a member of the public.

(8) Other engineering controls, administrative controls, and personal protective equipment.

(A) At fixed work locations where it is not possible to maintain the physical distancing requirement at all times, the employer shall install cleanable solid partitions that effectively reduce aerosol transmission between the employee and other persons.

(B) For buildings with mechanical or natural ventilation, or both, employers shall maximize the quantity of outside air provided to the extent feasible, except when the United States Environmental Protection Agency (EPA) Air Quality Index is greater than 100 for any pollutant or if opening windows or letting in outdoor air by other means would cause a hazard to employees, for instance from excessive heat or cold.

(C) Employers shall implement cleaning and disinfecting procedures, which require:

1. Identifying and regularly cleaning and disinfecting frequently touched surfaces and objects, such as doorknobs, elevator buttons, equipment, tools, handrails, handles, controls, bathroom surfaces, and steering wheels. The employer shall inform employees and authorized employee representatives of cleaning and disinfection protocols, including the planned frequency and scope of regular cleaning and disinfection.

2. Prohibiting the sharing of personal protective equipment and to the extent feasible, items that employees come in regular physical contact with such as phones, headsets, desks, keyboards, writing materials, instruments, and tools. When it is not feasible to prevent sharing, sharing shall be minimized and such items and equipment shall be disinfected between uses by different people. Sharing of vehicles shall be minimized to the extent feasible, and high touch points (steering wheel, door handles, seatbelt buckles, armrests, shifter, etc.) shall be disinfected between users.

3. Cleaning and disinfection of areas, material, and equipment used by a COVID-19 case during the high-risk exposure period.

*NOTE: Cleaning and disinfecting must be done in a manner that does not create a hazard to employees. See Group 2 and Group 16 of the General Industry Safety Orders for further information.*

(D) To protect employees from COVID-19 hazards, the employer shall evaluate its handwashing facilities, determine the need for additional facilities, encourage and allow time for employee handwashing, and provide employees with an effective hand sanitizer. Employers shall encourage employees to wash their hands for at least 20 seconds each time. Provision or use of hand sanitizers with methyl alcohol is prohibited.

(E) Personal protective equipment.

## COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

1. Employers shall evaluate the need for personal protective equipment to prevent exposure to COVID-19 hazards, such as gloves, goggles, and face shields, and provide such personal protective equipment as needed.
2. Employers shall evaluate the need for respiratory protection in accordance with section 5144 when the physical distancing requirements in subsection (c)(6) are not feasible or are not maintained.
3. Employers shall provide and ensure use of respirators in accordance with section 5144 when deemed necessary by the Division through the Issuance of Order to Take Special Action, in accordance with title 8 section 332.3.
4. Employers shall provide and ensure use of eye protection and respiratory protection in accordance with section 5144 when employees are exposed to procedures that may aerosolize potentially infectious material such as saliva or respiratory tract fluids.

*NOTE: Examples of work covered by subsection (c)(8)(E)4. include, but are not limited to, certain dental procedures and outpatient medical specialties not covered by section 5199.*

(9) Reporting, recordkeeping, and access.

(A) The employer shall report information about COVID-19 cases at the workplace to the local health department whenever required by law, and shall provide any related information requested by the local health department.

(B) The employer shall report immediately to the Division any COVID-19-related serious illnesses or death, as defined under section 330(h), of an employee occurring in a place of employment or in connection with any employment.

(C) The employer shall maintain records of the steps taken to implement the written COVID-19 Prevention Program in accordance with section 3203(b).

(D) The written COVID-19 Prevention Program shall be made available at the workplace to employees, authorized employee representatives, and to representatives of the Division immediately upon request.

(E) The employer shall keep a record of and track all COVID-19 cases with the employee's name, contact information, occupation, location where the employee worked, the date of the last day at the workplace, and the date of a positive COVID-19 test. Medical information shall be kept confidential in accordance with subsections (c)(3)(C) and (c)(3)(D). The information shall be made available to employees, authorized employee representatives, or as otherwise required by law, with personal identifying information removed.

Note: Subsection (c)(9)(E) does not alter the right of employees or their representatives to request and obtain an employer's Log of Work-Related Injuries and Illnesses (Log 300), without redaction, or to request and obtain information as otherwise allowed by law.

(10) Exclusion of COVID-19 cases. The purpose of this subsection is to limit transmission of COVID-19 in the workplace.

## COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

(A) Employers shall ensure that COVID-19 cases are excluded from the workplace until the return to work requirements of subsection (c)(11) are met.

(B) Employers shall exclude employees with COVID-19 exposure from the workplace for 14 days after the last known COVID-19 exposure to a COVID-19 case.

(C) For employees excluded from work under subsection (c)(10) and otherwise able and available to work, employers shall continue and maintain an employee's earnings, seniority, and all other employee rights and benefits, including the employee's right to their former job status, as if the employee had not been removed from their job.

Employers may use employer-provided employee sick leave benefits for this purpose and consider benefit payments from public sources in determining how to maintain earnings, rights and benefits, where permitted by law and when not covered by workers' compensation.

EXCEPTION 1: Subsection (c)(10)(C) does not apply to any period of time during which the employee is unable to work for reasons other than protecting persons at the workplace from possible COVID-19 transmission.

EXCEPTION 2: Subsection (c)(10)(C) does not apply where the employer demonstrates that the COVID-19 exposure is not work related.

(D) Subsection (c)(10) does not limit any other applicable law, employer policy, or collective bargaining agreement that provides for greater protections.

(E) At the time of exclusion, the employer shall provide the employee the information on benefits described in subsections (c)(5)(B) and (c)(10)(C).

EXCEPTION to subsection (c)(10): Employees who have not been excluded or isolated by the local health department need not be excluded by the employer, if they are temporarily reassigned to work where they do not have contact with other persons until the return to work requirements of subsection (c)(11) are met.

(11) Return to work criteria.

(A) COVID-19 cases with COVID-19 symptoms shall not return to work until:

1. At least 24 hours have passed since a fever of 100.4 or higher has resolved without the use of fever-reducing medications;
2. COVID-19 symptoms have improved; and
3. At least 10 days have passed since COVID-19 symptoms first appeared.

(B) COVID-19 cases who tested positive but never developed COVID-19 symptoms shall not return to work until a minimum of 10 days have passed since the date of specimen collection of their first positive COVID-19 test.

(C) A negative COVID-19 test shall not be required for an employee to return to work.

# COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

(D) If an order to isolate or quarantine an employee is issued by a local or state health official, the employee shall not return to work until the period of isolation or quarantine is completed or the order is lifted. If no period was specified, then the period shall be 10 days from the time the order to isolate was effective, or 14 days from the time the order to quarantine was effective.

(E) If there are no violations of local or state health officer orders for isolation or quarantine, the Division may, upon request, allow employees to return to work on the basis that the removal of an employee would create undue risk to a community's health and safety. In such cases, the employer shall develop, implement, and maintain effective control measures to prevent transmission in the workplace including providing isolation for the employee at the workplace and, if isolation is not possible, the use of respiratory protection in the workplace.

*Note: Authority cited: Section 142.3, Labor Code. Reference: Sections 142.3 and 144.6, Labor Code.*

## § 3205.1. Multiple COVID-19 Infections and COVID-19 Outbreaks.

(a) Scope.

(1) This section applies to a place of employment covered by section 3205 if it has been identified by a local health department as the location of a COVID-19 outbreak or when there are three or more COVID-19 cases in an exposed workplace within a 14-day period.

(2) This section shall apply until there are no new COVID-19 cases detected in a workplace for a 14-day period.

(b) COVID-19 testing.

(1) The employer shall provide COVID-19 testing to all employees at the exposed workplace except for employees who were not present during the period of an outbreak identified by a local health department or the relevant 14-day period(s) under subsection (a), as applicable. COVID-19 testing shall be provided at no cost to employees during employees' working hours.

(2) COVID-19 testing shall consist of the following:

(A) Immediately upon being covered by this section, all employees in the exposed workplace shall be tested and then tested again one week later. Negative COVID-19 test results of employees with COVID-19 exposure shall not impact the duration of any quarantine period required by, or orders issued by, the local health department.

(B) After the first two COVID-19 tests required by (b)(2)(A), employers shall provide continuous COVID-19 testing of employees who remain at the workplace at least once per week, or more frequently if recommended by the local health department, until this section no longer applies pursuant to subsection (a)(2).

(C) Employers shall provide additional testing when deemed necessary by the Division through the Issuance of Order to Take Special Action, in accordance with title 8 section 332.3.

# COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

(c) Exclusion of COVID-19 cases. Employers shall ensure COVID-19 cases and employees who had COVID-19 exposure are excluded from the workplace in accordance with subsections 3205(c)(10) and (c)(11) and local health officer orders if applicable.

(d) Investigation of workplace COVID-19 illness. The employer shall immediately investigate and determine possible workplace related factors that contributed to the COVID-19 outbreak in accordance with subsection 3205(c)(3).

(e) COVID-19 Investigation, review and hazard correction. In addition to the requirements of subsection 3205(c)(2) and 3205(c)(4), the employer shall immediately perform a review of potentially relevant COVID-19 policies, procedures, and controls and implement changes as needed to prevent further spread of COVID-19. The investigation and review shall be documented and include:

(1) Investigation of new or unabated COVID-19 hazards including the employer's leave policies and practices and whether employees are discouraged from remaining home when sick; the employer's COVID-19 testing policies; insufficient outdoor air; insufficient air filtration; and lack of physical distancing.

(2) The review shall be updated every thirty days that the outbreak continues, in response to new information or to new or previously unrecognized COVID-19 hazards, or when otherwise necessary.

(3) The employer shall implement changes to reduce the transmission of COVID-19 based on the investigation and review required by subsections (e)(1) and (e)(2). The employer shall consider moving indoor tasks outdoors or having them performed remotely, increasing outdoor air supply when work is done indoors, improving air filtration, increasing physical distancing as much as possible, respiratory protection, and other applicable controls.

(f) Notifications to the local health department.

(1) The employer shall contact the local health department immediately but no longer than 48 hours after the employer knows, or with diligent inquiry would have known, of three or more COVID-19 cases for guidance on preventing the further spread of COVID-19 within the workplace.

(2) The employer shall provide to the local health department the total number of COVID-19 cases and for each COVID-19 case, the name, contact information, occupation, workplace location, business address, the hospitalization and/or fatality status, and North American Industry Classification System code of the workplace of the COVID-19 case, and any other information requested by the local health department. The employer shall continue to give notice to the local health department of any subsequent COVID-19 cases at the workplace.

(3) Effective January 1, 2021, the employer shall provide all information to the local health department required by Labor Code section 6409.6.

*Note: Authority cited: Section 142.3, Labor Code. Reference: Sections 142.3 and 144.6, Labor Code.*

## § 3205.2. Major COVID-19 Outbreaks.

(a) Scope.

# COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*

(1) This section applies to any place of employment covered by section 3205 when there are 20 or more COVID-19 cases in an exposed workplace within a 30-day period.

(2) This section shall apply until there are no new COVID-19 cases detected in a workplace for a 14-day period.

(b) COVID-19 testing. Employers shall provide twice a week COVID-19 testing, or more frequently if recommended by the local health department, to all employees present at the exposed workplace during the relevant 30-day period(s) and who remain at the workplace.

COVID-19 testing shall be provided at no cost to employees during employees' working hours.

(c) Exclusion of COVID-19 cases. Employers shall ensure COVID-19 cases and employees with COVID-19 exposure are excluded from the workplace in accordance with subsections 3205(c)(10) and (c)(11) and any relevant local health department orders.

(d) Investigation of workplace COVID-19 illnesses. The employer shall comply with the requirements of subsection 3205(c)(3).

(e) COVID-19 hazard correction. In addition to the requirements of subsection 3205(c)(4), the employer shall take the following actions:

(1) In buildings or structures with mechanical ventilation, employers shall filter recirculated air with Minimum Efficiency Reporting Value (MERV) 13 or higher efficiency filters if compatible with the ventilation system. If MERV-13 or higher filters are not compatible with the ventilation system, employers shall use filters with the highest compatible filtering efficiency. Employers shall also evaluate whether portable or mounted High Efficiency Particulate Air (HEPA) filtration units, or other air cleaning systems would reduce the risk of transmission and shall implement their use to the degree feasible.

(2) The employer shall determine the need for a respiratory protection program or changes to an existing respiratory protection program under section 5144 to address COVID-19 hazards.

(3) The employer shall evaluate whether to halt some or all operations at the workplace until COVID-19 hazards have been corrected.

(4) Any other control measures deemed necessary by the Division through the Issuance of Order to Take Special Action, in accordance with title 8 section 332.3.

(f) Notifications to the local health department. Employers shall comply with the requirements of section 3205.1(f).

*Note: Authority cited: Section 142.3, Labor Code. Reference: Sections 142.3 and 144.6, Labor Code.*

## COVID-19 Prevention Program

An Addendum to the Injury and Illness Program: *In accordance with TITLE 8, DIVISION 1, CHAPTER 4, Subchapter 7. General Industry Safety Orders Section 3205, COVID-19 Prevention*
